Grade 8 Program

English

French Immersion

After-school Grade 9 _____ credit

Students who have successfully completed a Grade 9 credit will discuss their additional course options with a Student Services Counsellor individually.

When you have explored, discussed and identified your course choice for this credit, please identify it here.

Grade 9 Program

English

You will take 8 courses in Grade 9 (6 compulsory and 2 elective courses).

Compulsory Courses

These are your 6 compulsory courses. You and your parent(s)/guardian(s) will need to decide which of Academic, Applied and/or Locally Developed compulsory courses (LDCC) will suit your learning style and provide you with the greatest opportunity for success.

	Parent/Guardian Decision	Parent/Guardian Decision	Parent/Guardian Decision
Mathematics	<input type="checkbox"/> Pre AP <input type="checkbox"/> Academic	<input type="checkbox"/> Applied	<input type="checkbox"/> LDCC
English	<input type="checkbox"/> Pre AP <input type="checkbox"/> Academic	<input type="checkbox"/> Applied	<input type="checkbox"/> LDCC
Science	<input type="checkbox"/> Pre AP <input type="checkbox"/> Academic	<input type="checkbox"/> Applied	<input type="checkbox"/> LDCC
French or Native Languages - Ojibwe	<input type="checkbox"/> Academic <input type="checkbox"/> Level 1	<input type="checkbox"/> Applied	<input type="checkbox"/> Exempt
Geography	<input type="checkbox"/> Academic	<input type="checkbox"/> Applied	
Health & Physical Education	<input checked="" type="checkbox"/> Open		

Complete your elective course selections on next page.

Westgate CVI 2016-2017

Please rank your course requests for Grade 9 Elective Courses in the box beside the title. Rank the courses 1 = 1st Choice, 2 = 2nd Choice, and 3 = 3rd Choice.

Every effort will be made to ensure students receive one of their top TWO choices from all options available below.

Dance **ATC101**
 This course gives students the opportunity to explore their technical and compositional skills by applying the elements of dance and the tools of composition in a variety of performance situations. Students will generate movement through structured and unstructured improvisation, demonstrate an understanding of safe practices with regard to themselves and others in the dance environment, and identify the function and significance of dance within the global community.

Drama **ADA101**
 This course provides opportunities for students to explore dramatic forms and techniques, using material from a wide range of sources and cultures. Students will use the elements of drama to examine situations and issues that are relevant to their lives. Students will create, perform, discuss, and analyse drama, and then reflect on the experiences to develop an understanding of themselves, the art form, and the world around them.

Exploring Technologies **TIJ101**
 This course enables students to further explore and develop technological knowledge and skills introduced in the elementary science and technology program. Students will be given the opportunity to design and create products and/or provide services related to the various technological areas or industries, working with a variety of tools, equipment, and software commonly used in industry. This exploratory course introduces students to the basic concepts and skill sets required to be successful in the following courses: Construction Technology that includes planning and construction of wood projects. Transportation Technology which will provide instruction to maintain and repair a variety of land, air and water craft vehicles. Manufacturing Technology that encompasses technical drawing, preparation of material and manufacturing techniques. Design Technology which involves the development of solutions to various design challenges and the fabrication of models or prototypes of those solutions. Students will develop an awareness of related environmental and societal issues, and will begin to explore secondary and post secondary pathways leading to careers in the field.

Expressing Aboriginal Culture **NAC101**
 This course examines Aboriginal cultures in Canada through an exploration of art forms – painting, sculpture, storytelling, dance, and music – created by Aboriginal artists. Students will learn to identify Aboriginal art forms and describe relationships between the art forms and Aboriginal traditions, philosophy, and culture. Students will also create their own art forms to express their understanding of Aboriginal identity, relationships, and sovereignty.

Information and Communication Technology in Business: Web 2.0 and Graphic Editing **BTT101**
 This course introduces students to information and communication technology in a business environment and builds a foundation of digital literacy skills necessary for success in a technologically driven society. Students will develop word processing, spreadsheet, database, desktop publishing, presentation software, and website design skills. Throughout the course, there is an emphasis on digital literacy, effective electronic research and communication skills, and current issues related to the impact of information and communication technology. Explore Microsoft Office, Webpage Design, Adobe Photoshop and more. Get practical computer skills you can use everyday.

Music (Band) **AMI101**
 This course emphasizes the creation and performance of music at a level consistent with previous experience and is aimed at developing technique, sensitivity, and imagination. Students will develop musical literacy skills by using the creative and critical analysis processes in composition, performance, and a range of reflective and analytical activities. Students will develop an understanding of the conventions and elements of music and of safe practices related to music, and will develop a variety of skills transferable to other areas of their life.

Visual Arts **AVI101**
 This course is exploratory in nature, offering an overview of visual arts as a foundation for further study. Students will become familiar with the elements and principles of design and the expressive qualities of various materials by using a range of media, processes, techniques, and styles. Students will use the creative and critical analysis processes and will interpret art within a personal, contemporary, and historical context.

Grade 10 Course Options for Students who are currently enrolled in a Grade 9 After School Credit.

Technological Studies

Please indicate (✓) one area of interest here:

Design Technology **TDJ201**

Construction Technology **TCJ201**

Manufacturing Technology **TMJ201**

Transportation Technology **TTJ201**

Pre-Advanced Placement

Grade 9 students interested in considering AP subjects at the senior level may begin challenging themselves through preparation and methods of AP skills development in advanced level courses.

Advanced Placement at Westgate

Westgate CVI is pleased to offer students in Grades 11 and 12 Advanced Placement (AP) courses. Students participating in the Advanced Placement (AP) courses and who are successful may be exempt from post-secondary courses or be allowed to replace a first year course with a second year option at university.

Information and Communication Technology in Business BTT101

This course introduces students to information and communication technology in a business environment and builds a foundation of digital literacy skills necessary for success in a technologically driven society. Students will develop word processing, spreadsheet, database, desktop publishing, presentation software, and website design skills. Throughout the course, there is an emphasis on digital literacy, effective electronic research and communication skills, and current issues related to the impact of information and communication technology. Explore Microsoft Office, design a small business website and experience many fun, hands-on activities used to learn the essential skills required for a business and technologically-driven society.

Exploring Technologies TIJ101

This course enables students to further explore and develop technological knowledge and skills introduced in the elementary science and technology program. Students will be given the opportunity to design and create products and/or provide services related to the various technological areas or industries, working with a variety of tools, equipment, and software commonly used in industry. Students will develop an awareness of environmental and societal issues, and will begin to explore secondary and post-secondary education and training pathways leading to careers in technology-related fields. Students will be able to participate in hands-on competitions such as the Skills Canada Cardboard Boat Challenge, Bridge Building, and Catapult Building competitions.

Expressing Aboriginal Culture NAC101

This course examines Aboriginal cultures in Canada through an exploration of art forms – painting, sculpture, storytelling, dance, and music – created by Aboriginal artists. Students will learn to identify Aboriginal art forms and describe relationships between the art forms and Aboriginal traditions, philosophy, and culture. Students will also create their own art forms to express their understanding of Aboriginal identity, relationships, and sovereignty.

Music (Band) AMI101

This course emphasizes the creation and performance of music at a level consistent with previous experience and is aimed at developing technique, sensitivity, and imagination. Students will develop musical literacy skills by using the creative and critical analysis processes in composition, performance, and a range of reflective and analytical activities. Students will develop an understanding of the conventions and elements of music and of safe practices related to music, and will develop a variety of skills transferable to other areas of their life. Develop skills and talents on band instruments, learn a new sign language (music theory) and get together with friends to create some fabulous sounds!

Visual Arts AVI101

This course is exploratory in nature, offering an overview of visual arts as a foundation for further study. Students will become familiar with the elements and principles of design and the expressive qualities of various materials by using a range of media, processes, techniques, and styles. Students will use the creative and critical analysis processes and will interpret art within a personal, contemporary, and historical context. Express yourself through studio, design and independent projects including drawing, painting, print making and sculpture. Visual Arts is a creative, active and inspirational learning experience.

Grade 10 Course Options for Students who are currently enrolled in a Grade 9 After School Credit.

Music, Band AMI201

Students will continue the creative and performance elements established in AMI101.

Introduction to Business BBI201

Creating and running your own business and managing a stock market portfolio will be just some of the engaging, real life activities we will explore to ensure our students are prepared for a business and technology driven society.

Rank your top three choices for Grade 9 elective courses.

Every effort will be made to ensure students receive one of their top two choices.

Grade 8 Program English

After-school Grade 9 _____ credit

Students who have successfully completed a Grade 9 credit will discuss their additional course options with a Student Services Counsellor individually.

When you have explored, discussed and identified your course choice for this credit, please identify it here.

Grade 9 Program English

You will take 8 courses in Grade 9 (6 compulsory and 2 elective courses).

Compulsory Courses

These are your 6 compulsory courses. You and your parent(s)/guardian(s) will need to decide which of Academic, Applied and/or Locally Developed courses will suit your learning style and provide you with the greatest opportunity for success. Your teacher will add his or her recommendations.

Please indicate (✓)	Parent/Guardian Decision	Teacher Recommendation
Mathematics	<input type="checkbox"/> Academic <input type="checkbox"/> Applied <input type="checkbox"/> LDCC	<input type="checkbox"/> Academic <input type="checkbox"/> Applied <input type="checkbox"/> LDCC
English	<input type="checkbox"/> Academic <input type="checkbox"/> Applied <input type="checkbox"/> LDCC	<input type="checkbox"/> Academic <input type="checkbox"/> Applied <input type="checkbox"/> LDCC

Hammarskjold HS 2016-2017

Please rank your course requests for Grade 9 Elective Courses in the box beside the title. Rank the courses 1 = 1st Choice, 2 = 2nd Choice, and 3 = 3rd Choice.

Exploring Technologies **TIJ101**
 This course enables students to further explore and develop technological knowledge and skills introduced in the elementary science and technology program. Students will be given the opportunity to design and create products and/or provide services related to the various technological areas or industries, working with a variety of tools, equipment, and software commonly used in industry. Students will develop an awareness of environmental and societal issues, and will begin to explore secondary and post-secondary education and training pathways leading to careers in technology-related fields. Students will participate in units of bridge building, AutoCAD drawing, electrical circuits, sheet metal, Lego Robotics, and design challenges.

Drama **ADA101**
 This course provides opportunities for students to explore dramatic forms and techniques, using material from a wide range of sources and cultures. Students will use the elements of drama to examine situations and issues that are relevant to their lives. Students will create, perform, discuss, and analyse drama, and then reflect on the experiences to develop an understanding of themselves, the art form, and the world around them.

Music (Band) **AMI101**
 This course emphasizes the creation and performance of music at a level consistent with previous experience and is aimed at developing technique, sensitivity, and imagination. Students will develop musical literacy skills by using the creative and critical analysis processes in composition, performance, and a range of reflective and analytical activities. Students will develop an understanding of the conventions and elements of music and of safe practices related to music, and will develop a variety of skills transferable to other areas of their life. Students will choose their instrument from the standard concert band instrumentation - flute, oboe, clarinet, saxophone, bassoon, French horn, trumpet, baritone, tuba and drums. Students will play as a group and have the opportunity for public performance. **Instruments Provided**

Music (Guitar) **AMG101**
 This course emphasizes the creation and performance of music at a level consistent with previous experience and is aimed at developing technique, sensitivity, and imagination. Students will develop musical literacy skills by using the creative and critical analysis processes in composition, performance, and a range of reflective and analytical activities. Students will develop an understanding of the conventions and elements of music and of safe practices related to music, and will develop a variety of skills transferable to other areas of their life. Students will develop guitar skills in a variety of musical styles and will perform as a group. **Students must provide their own acoustic guitar.**

Every effort will be made to ensure students receive one of their top two choices.

Information and Communication Technology in Business **BTT101**
 This course introduces students to information and communication technology in a business environment and builds a foundation of digital literacy skills necessary for success in a technologically driven society. Students will develop word processing, spreadsheet, database, desktop publishing, presentation software, and website design skills. Throughout the course, there is an emphasis on digital literacy, effective electronic research and communication skills, and current issues related to the impact of information and communication technology. Explore Microsoft Office, Webpage Design, Adobe Photoshop and more. Get practical computer skills you can use everyday.

Music (Strings) **AMS101**
 This course emphasizes the creation and performance of music at a level consistent with previous experience and is aimed at developing technique, sensitivity, and imagination. Students will develop musical literacy skills by using the creative and critical analysis processes in composition, performance, and a range of reflective and analytical activities. Students will develop an understanding of the conventions and elements of music and of safe practices related to music, and will develop a variety of skills transferable to other areas of their life. Strings will allow students to develop playing skills as a part of a string orchestra on violin, viola, cello, or double bass and have the opportunity for public performance. **Instruments Provided**

Expressing Aboriginal Cultures **NAC101**
 This course examines Aboriginal cultures in Canada through an exploration of art forms – painting, sculpture, storytelling, dance and music – created by Aboriginal artists. Students will learn to identify Aboriginal art forms and describe relationships between the art forms and Aboriginal traditions, philosophy and culture. Students will also create their own art forms to express their understanding of Aboriginal identity, relationships and sovereignty.

Visual Arts **AVI101**
 This course is exploratory in nature, offering an overview of visual arts as a foundation for further study. Students will become familiar with the elements and principles of design and the expressive qualities of various materials by using a range of media, processes, techniques, and styles. Students will use the creative and critical analysis processes and will interpret art within a personal, contemporary, and historical context.

Pre-Advanced Placement
 Grade 9 and 10 students interested in considering AP subjects at the senior level may begin challenging themselves through preparation and methods of AP skills development in advanced level English, Mathematics, Science and French.

Advanced Placement at Hammarskjöld
 Hammarskjöld High School is pleased to offer students in Grades 11 and/or 12 Advanced Placement (AP) courses in English, French, Mathematics, Biology, Chemistry, Computer Science and Physics. Students participating in the Advanced Placement (AP) courses and who are successful may be exempt from post-secondary course or be allowed to replace a first year course with a second year option at university.
